

## X-DRIVE Evolve: Contemporary Style Casement Hardware

Roto North America is pleased to present our new X-DRIVE Evolve: Contemporary line of casement operator covers, crank handles and lock handles. This design features a sleek aesthetic with clean lines to complement today's window and door trends. Compatible with both OP06 and OP08 operators, this line will be offered in numerous color finishes. The crank handles also feature Roto's innovative lockout design. As standard, covers and handles can be purchased in kit form.

Unique lockout feature to enhance the functionality of the window
